Nilesh Singh

Java Backend Developer | Spring Boot | REST APIs | DSA

nilesh.singh@email.com | +91 7897590989 | LinkedIn | GitHub | LeetCode Peak Rating: 1870

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate with a strong foundation in Java, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), and scalable backend development. Experienced in designing robust Spring Boot applications, RESTful APIs, and database-driven architectures. Adept at leveraging modern Java features, database management (MySQL, Hibernate/JPA), and security frameworks (Spring Security, JWT). Passionate about writing clean, maintainable code and solving complex algorithmic challenges.

TECHNICAL SKILLS

- **Languages:** Java, C, Python, SQL, JavaScript
- **Backend Technologies:** Spring Boot, Spring MVC, RESTful APIs, Servlets, JSP, JDBC, Microservices (Concepts)
- **Core Java:** OOP, Collections Framework, Exception Handling, Multithreading, Concurrency, Lambda Expressions, Functional Interfaces, Stream API
- **Databases & ORM:** MySQL, Relational Databases, JDBC, JPA, Hibernate
- **Security & Tools:** Spring Security, JWT Authentication, Git, GitHub, Maven, IntelliJ IDEA, VS Code, Postman, Docker
- **APIs & Problem Solving:** REST API, Groq AI API integration, Data Structures & Algorithms, Competitive Programming

PROJECTS

What Beats What — AI-Powered Web Game *Java, Spring Boot, Thymeleaf, MySQL, REST API, Groq AI*

- Engineered a full-stack web application where users submit creative challengers against a reigning champion, with automated AI judging powered by the Groq API.
- Developed robust Spring Boot REST controllers and service layers to handle game state transitions, asynchronous requests, and frontend-backend communication via JSON.
- Integrated third-party AI APIs securely, implementing robust error handling, response parsing, and optimized payload structures.
- Enhanced user retention by incorporating score tracking, streak logic, and best-score persistence using browser local storage and clean Thymeleaf server-side rendering.
- Maintained strict version control using Git/GitHub and performed comprehensive API endpoint testing and debugging via Postman.

EDUCATION

KCC Institute of Technology and Management *Greater Noida, India*

Bachelor of Technology (B.Tech) in Computer Science & Engineering *Expected Graduation: 2028*

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks.

CODING & PROBLEM SOLVING

- **Competitive Programming:** Achieved a maximum rating of **1870** on LeetCode with consistent problem-solving activity.
- **Problems Solved:** Successfully solved over **300+ algorithmic problems** on LeetCode, covering core patterns like Two Pointers, Sliding Window, Dynamic Programming, Trees, and Graphs.

- **Algorithmic Fundamentals:** Strong command over time and space complexity analysis, recursion, sorting, searching, and hashing in Java.

POSITIONS & ACTIVITIES

Q Tech Society *Technical Team Member*
KCC Institute of Technology and Management *Dec 2023 – Present*

- Contributing to technical workshops, coding sessions, and peer-to-peer learning initiatives focused on software engineering best practices.
- Collaborating with peers on technical utility projects and improving practical development workflows using Git/GitHub.
